the subject referred to under sec 53(1) of the Mc Regn which authorizes the raising of a loan for constructing any work of a permanent nature the Policy of Govt in regard to the electrification of towns is that the proprietory right over the works vest in Govt, the Mc Council being only called upon to guarantee a prescribed return to Govt. The work to be undertaken, though useful to the inhabitants of the Mc does not appear to be one for which a loan can be raised under the provns of the Mc Regn. The Law Secretary may be consulted.

The District Board cannot raise a loan for the electrification of the Chintamani Town Municipality, because it is none of the obligatory or optional functions of a DB to provide lighting in a Municipality.

128 — loan

As for the Chintamani Town Municipality itself raising a loan, there appears to be no legal objection to its taking action under sec 53A of the Mc Regn. Before however considering the other implications of this question, the views of the Mc council

GENERAL SECRETARY 24 SEP 1932 No K S 2

Sir,

Subject - Electrification of Chintamani Town

The Chief Electrical Engineer has submitted for the sanction of Government an estimate amounting to Rs 1,05,200/- in connection with the above and the Municipal Council of Chintamani Town have guaranteed a revenue of Rs 12,786 per annum for the first start of power supply The Deputy Commissioner, Kolar District has also certified that the Municipal Council is in a position to meet the guaranteed liability The Chief Electrical Engineer expects a net income of Rs 10,908/- per annum which works out to a return of 10 4/6 on the capital outlay But there are no funds available in the sanctioned budget for taking up thi work

2 I append in the margin a copy of the Dewan's Minute dated the 8th September 1932 and to request you to kindly address the District Boar and the Municipal Council of Chintamani and intimat their views to enable the matter being placed before Government for the orders

Dewan's Minute dated 8th September 1932

Would it be possible for the District Board or the Chintamani Municipality to raise a loan for this purpose, if, as I think, the Chief Electrical Engineer is not able to find funds by re-appropriation It seems such a pity not to undertake a remunerative work of this character

I have the honour to be,
Sir,
